EXPERIENCE

Senior Developer | Fablevision - *Remote*

2024 - Present

- Built 5 games for Marsico's "Bajillions" - a research based education suite of games focused on teaching kids early math concepts, partnering with the Marsico Institute for Early Learning at the University of Denver.
- Assisted with platform integration and device compatibility with the company's base frameworks, profiling and optimizing apps to run on lower end devices
- Built games for the Youtube Playables platform, programming all functionality, physics and platform integration with Youtube's custom Playables SDK

Lead Developer | Primal Screen – *Atlanta, GA*

2019 - 2024

- Performed as technical director and programming lead for 20+ interactive projects (web games, VR, etc)
- Responsible for programming the core game framework used in all of the company projects, as well as tooling for assisting artists in preparing build-ready assets and animations.
- Used industry standard game engines and frameworks (PixiJS, Phaser.js, Unity C#, Unreal5) to deliver unique gaming experiences with an on-average 4-6 month turnaround
- Pitched short-form educational game concepts that engage critical thinking and emotional learning for kids ages 4 and up to clients well-versed in early child development (PBS, Sesame Workshop, Fred Rogers, etc),
- Worked with professional artists and animators to set up illustration and animation workflows for handling assets. This allowed for more creative control during prototyping and art verification in staging builds throughout the development process.
- Collaborated with external client development teams on feature implementation for their own proprietary products

Senior Developer | Jet Morgan Games - *Remote*

2013 - 2016

- Developed and shipped web games and digital content for established IPs (Skylanders, My Little Pony, Polly Pocket, etc.) for various media clients such as Activision, Hasbro, Disney, and Cartoon Network.
- Worked in a small team environment with industry professionals to create short-form content for the web.
- Adapted to and assisted with the upkeep of
